Ankit Kumar Singh

An open-minded person, who is constantly ready to learn new technologies, with an adaptable mindset. I would refer to myself as a good problem solver, with a good hold over **JAVA** and **PYTHON**. I've worked on projects like **web development**, **GUI development**, and **database storage**, and I'm also skilled in analysis using **M.s Excel, Microsoft Power BI** , **TABLEAU.** In today's fast-paced world, I regard myself as a student eager to learn more with each passing day.

EDUCATION

Bachelor of Technology
Lovely Professional University

2019 - 2023   *Jalandhar,India*

Computer Science Engineering (CGPA-7.49)
- **Data Science/web-Development**

Senior Secondary
BSEB, S.N Sinha College

2017 - 2019   *Aurangabad, Bihar*

Courses
- PCM (78.4%)

PERSONAL PROJECTS

Face Recognition System (2023)
- Technologies used: **Python, MySQL Database, OpenCV, Cascade Classifier, LBPH Algorithm**
- Description: This project use python for GUI development and for taking the facial data **OpenCV, Cascade Classifier** for train the dataset we use **LBPH Algorithm**

Sales Analysis (2022)
- Technologies used: **Microsoft Power BI**
- Description: This project is basically a analysis project using Microsoft Power BI in which I have **clean** the data using **data transform** and used different **Build Visual** for Analysis and edited these Build Visual using **format Visual**

My-portfolio (2021)
- Technologies used: **HTML**, **CSS**, **Javascript**
- Description: This website is basically for Showcasing the talent and achievement of Student and also used for **business purpose**. In this project I have used **HTML, CSS**, **JavaScript** for Functionality

Bus-reservation-system (2020)
- Technologies used: **Python, MySQL Database**
- Description: This software is basically a **GUI** project in **Python** which using **MySQL database** for fetching data which user is searching ex. **Shorting** tickets by date-time ,place and booking the tickets

IPL Analysis (2021)
- Technologies used: **M.s Excel**
- Description: This project is basically a analysis project using Microsoft **Excel .** in which I have **clean** the data and used different **Build Visual for Analysis**

SKILLS

JAVA   Python   Object Oriented Programming

DBMS   Microsoft Power BI   M.S EXCEL

Tableau   HTML   CSS   JavaScript   GUI

API   SQL   J2EE   Leadership

Team Management

ORGANIZATIONS

TFI ((2020)
Advertising manager, Co-Ordinator

CERTIFICATES

Coding Ninjas (02/2022 - 12/2022)
*Learning Outcomes: I have learnt Java from basic to Advance (**object oriented programming** and **Data Structure**)*

Fundamentals of Web Development (2021)
*Learning Outcomes: I learnt about frontend web development (**HTML,HTML5,CSS JavaScript Bootstrap**)*

Machine Learning Specialization(2022)
 (09/2022 - 12/2022)
learning Outcomes: I Have learnt about Supervised Machine Learning: Regression and Classification and Unsupervised Learning, Recommenders, Reinforcement Learning.

Workshop on Python For Data Science (2021)
*Learning Outcomes: i learnt how to code in python and learnt different aspects of python ex. **Numpy**, **Matplotlib** etc*

Blockchain Basics (2020)
*Learning Outcomes: I have learnt about **Cryptography, Architecture, Hashing, Smart contracts***
